

### **CIPEG Resolution 2019**

In accordance with the theme of the 25th ICOM General Conference in Kyoto, 'Museums as Cultural hubs: The Future of Tradition', CIPEG is concerned about the sustainability of museums with Egyptian and Nubian collections. CIPEG deplores the elimination of curatorial positions associated with Egyptian and Sudanese art and antiquities. We support the (re)hiring of curatorial staff with Egyptological and/or Nubiological training to care for these collections, ensuring communication and international collaboration.
